I've been communicating with Gina, so let me ask what her thoughts are.

This would be a good funding mechanism for us to use to fund Texas hornshell work in Mexico, as it certainly supports our SSA for that species. This agreement is currently under departmental review because it is over $100,000. The hornshell work in Mexico is a priority for Acting Director Sheehan; is there anything we can do to get the departmental review expedited so that we can get the funding in place?
